

PROFILE

Product Design graduate working across UI/UX, web and marketing design. Trained in the full design process — research, sketching, prototyping and iteration — and applying it commercially: I designed, built and launched my own marketing and web design business end to end, handling brand identity, layout, copy and build. I work with Figma, the Adobe Creative Suite and AI tools including Claude Code and Figma AI to move from concept to shipped interface quickly. Six months in a B2B sourcing role gave me the commercial grounding to design for business outcomes, not just screens.

PRACTICE

UI & UX Design User flows, wireframes, interactive prototypes, design systems, responsive layout.	Web Design Landing pages, site structure, front-end build with Claude Code, on-page SEO.	Marketing Design Brand identity, messaging hierarchy, campaign and sales collateral, presentations.	Product Design Concept sketching, CAD modelling and rendering in SolidWorks, design for manufacture.

EXPERIENCE

Founder / Designer — Freelance Marketing & Web Design

2025 – PRESENT

- Designed, built and launched my own marketing and web design business website end to end, handling brand identity, layout, copy and build using Claude Code.
- Applied design training to commercial problems: positioning, messaging hierarchy and visual identity aimed at converting visitors into enquiries.
- Optimised the site for SEO throughout the code, using key phrases and page structure to improve visibility in Google searches.
- Set up a Google Business account linked to the website and built working contact buttons to capture enquiries directly.

Design & Product Sourcing Intern — Sweetspot Sourcing Ltd

MAR – SEP 2025

- Created customer-facing product visuals, presentations and SolidWorks mock-ups to communicate product concepts clearly and support commercial discussions.
- Created a SolidWorks mock-up and animation for a customised children's Santa tin that supported a successful manufacturing deal for 50,000 units.
- Supported tender and new-business activity for major organisations including RTE and Lidl; contributed to pricing, product research and proposal preparation, with the Lidl tender ultimately resulting in a contract win.
- Managed day-to-day communication with clients, suppliers and logistics providers, following up on pricing, samples, production timelines, freight and deliveries.
- Supported business development and outbound prospecting through targeted cold calls and email outreach, maintaining a structured prospect tracker.

- Promoted to Trainer, responsible for onboarding and developing 15+ new team members while supporting team performance.
- Built strong communication, active listening and relationship-building skills through high-volume customer interaction and professional problem solving.
- Led team communication and coordination during high-volume trading periods, including five-figure revenue days, maintaining service and operational standards under pressure.
- Represented the restaurant at national sustainability meetings with Nando's Ireland leadership, demonstrating confidence communicating with senior stakeholders.

TOOLS & SKILLS

DESIGN TOOLS Figma · Adobe Photoshop · Illustrator · InDesign · SolidWorks	AI IN THE WORKFLOW Claude & Claude Code – designing and building production websites · Figma AI – faster layout and iteration
